DIGI TECH TERM 2

Year 2 students will be using Scratch Jr. to records sounds and arrange them into a short piece of music.
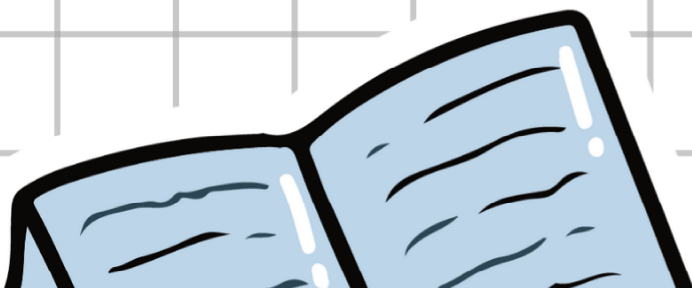

Year 3/4 students will be using Scratch to create code for a soundboard with music and vocal samples.

Year 5/6 students will be learning about musical arrangements by using Soundtrap to create a short piece of music with different sound samples.

We will be focussing on the skills of creativity and communication.

Please make sure your child brings their device EVERY DAY and that Minecraft Education is installed, ready for learning!

WAYNE
