

PERFORMING ARTS

TERM 4 2024

During Performing Arts in Term 4,

Our Prep students will be continuing to focus on Drama. They will be exploring how we can turn story books into role-play, by focussing on character development through story telling. The students will also be looking at community helpers and participating in a variety of role-play scenarios and drama games.

Our Year 1 students will be continuing to focus on Drama. They will be studying Drama around the world. The students will explore fables and folktales from different countries, and how they use masks and puppets to tell stories. The students will also continue character development through short scripted scenes and drama games.

Our Year 2 students will be continuing to focus on Drama. They will be further developing their understanding of characterisation through scripted play and improvisation. The students will work through steps to a successful performance; read through, blocking, lines/movement, costuming, rehearsal and performance. The students will also be participating in different improvisation drama games and skits.

Teacher: Jenny Farrelly
