

YEAR 1 TERM 3 OVERVIEW

WHAT ARE WE LEARNING

Changes in Daily Life

In Term 3, students will continue to explore how their daily lives are similar to and different from the past, and investigate the history

Properties of Materials

Students will investigate materials and their properties. They will learn the difference between natural and man-made materials, explore how materials can be combined for different purposes, and discover that materials can be changed physically without changing what they are made of. Students will be successful when they can identify and describe materials and explain how they can be changed and used.

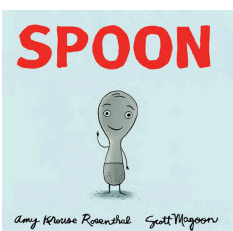

Literature Focus: 'Spoon' by Amy Krouse Rosenthal

We will read the text 'Spoon' where students will discuss plot, character and setting, as well as build comprehension strategies such as questioning and making inferences. They will learn how to use language to explain their likes, dislikes and preferences.

Being Healthy & Safe

Students will learn about protective behaviours and help seeking strategies to keep themselves and others safe. They will explore health and safety messages that promote wellbeing. Learning will be supported through the Healthy Harold program in early Term 4.

Home Learning Task: Students will investigate natural and man-made materials they find at home. More information will be sent out next term.

REMINDERS

- **Numbots:** 10-15 minutes a few times a week at home.
- **Home Reading:** Students are encouraged to record the books they have read in their reading journals.
- **Fruit or veggie snack** can be eaten in the morning. Please pack it in a **separate container**.
